

Barrier Glovebox Isolators and Containment Systems

Isolation Systems, Inc. Glove Box Barrier Isolation Systems provide the highest levels of containment ensuring operator and product protection. All Isolation Systems Inc. Barrier Isolation equipment undergoes rigorous in house testing prior to customer certification and validation to ensure integrity and performance criteria.

Isolation Systems, Inc. Sales, Design and Engineering staff will work alongside our customers from project inception through to final validation and certification.

Custom designed and process specific systems are our specialty. Our product's superior construction ensures durability and the highest containment levels possible.

ISOLATOR DESIGN CONFIGURATIONS:

- POTENT COMPOUND
- ASEPTIC
- STERILITY TEST
- FILL LINE
- COMPOUNDING /MILL
- VACUUM
- NITROGEN ATMOSPHERE
- BIOHAZARD
- CHARGING
- POSITIVE / NEGATIVE
- RE-CIRCULATING UNIDIRECTIONAL
- EXPLOSION PROOF
- PHARMACY
- MOBILE

STANDARD FEATURES:

- 304L STAINLESS STEEL CONSTRUCTION
- COVERED INTERIOR CORNER TRANSITIONS
- GAS SPRING ASSISTED LIFT DOORS
- 3/8" THICK CLEAR TEMPERED SAFETY GLASS
- 316 STAINLESS STEEL GLOVE PORTS
- CSM (HYPALON) GLOVES
- VAPOR TIGHT LED LIGHTING
- WET LOCATION RATED ON/OFF SWITCHES
- LOW PROFILE MOTORIZED BLOWERS
- PRESSURE GAGES
- REPLACEABLE FDA APPROVED DOOR GASKET

Potent Compound Containment Isolator

Aseptic Isolator

Automated Powder Transfer Isolator

Nitrogen Environment Isolator

Manway Transfer Ports
and Material Trolley Rail

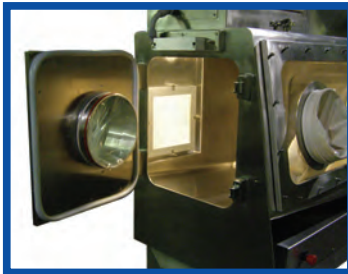

Programmable Logic
Controls & Alarm System

Automated Discharge
Funnel

Drum Introduction
Ports with Covered
Corner Interior

Bag-In Bag-Out
Transfer Port with
Electronic Interlock
Assembly

Flush Pocketed
Transfer Door

Process Equipment Installation

OPTIONAL FEATURES:

- 316L STAINLESS STEEL CONSTRUCTION
- AUDIBLE VISUAL ALARMS
- MACHINE SAFETY INTERLOCKS
- CIP/ WIP DISTRIBUTION
- SPRAY WAND
- SANITARY DRAIN VALVE
- PASS THRU AIR LOCKS
- ALPHA/BETA PORTS
- PLC SYSTEMS CONTROL
- ERGONOMIC HEIGHT ADJUSTMENT
- SERVICE VALVES
- INTERNAL ELECTRICAL OUTLETS
- DRUM LIFT / TIP SYSTEMS
- RAPID CHANGE GLOVE SYSTEM
- OVAL GLOVE PORTS
- BAG OUT SYSTEMS
- SEALED DATA PORTS
- CONVEYANCE SYSTEMS
- STERITEST SYSTEM
- VHP / VAPOR DECONTAMINATION KITS
- HYDROPHOBIC HEPA / ULPA FILTRATION

CONFORMANCE STANDARDS:

- ISO-5
- AGS-G001-207
- SMEPAC
- USP-797
- ISO-14644-1
- NSF-49
- IEST-RP-CC-002.2
- IEST-RP-CC-006.3
- CGMP STANDARDS
- CLASS 3 BIO LEVEL-4
- NEMA 4X, 7 & 9

Isolation Systems, Inc. is dedicated to providing the highest level of airborne contamination control, containment and extraction technologies to meet the ever expanding challenges of our industry.

Thank you for considering Isolation Systems, Inc. for your next project.
